

Word counting has never been so easy.

wordtraverse v1.1 2004

wordtraverse v1.1 2004

Users desiring a fine pallet of options for their document billing necessities will look to Word Traverse 2004.

ConvergeXe's WordTraverse is an automated Microsoft Word bulk document counting utility with invoicing capabilities used by transcription companies and businesses that charge by rates based upon text document length specifications. WordTraverse works using Microsoft Word version: 97, 2000, XP or 2003, to count any supported document that Microsoft Word supports.

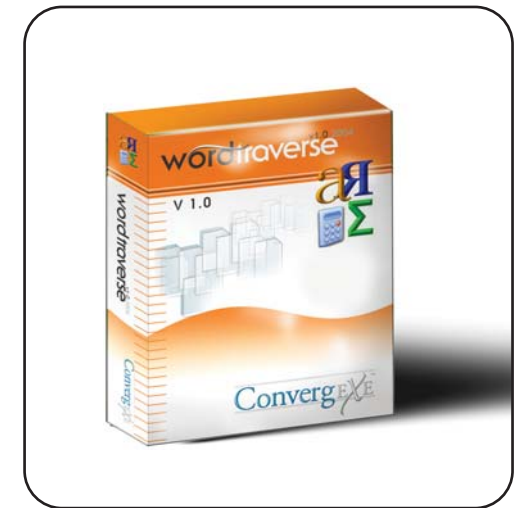

\*(i.e. Word documents, Works documents, and WordPerfect documents)

## Word Traverse Benefits:

Users desiring a fine pallet of options for their document billing necessities will look to Word Traverse 2004.

Let mere intuition lead you through the simple 4 step process of adding your company information, recipient billing information, compiling the list of documents you wish to be counted, and finally, with anxious reservation, press the Traverse button as one will see the beauty of the program in action.

Microsoft® Word will automatically open, creating the elegant duplex shaded invoice with user defined calculations and reporting options. Simply print the invoice as it will fit in a standard windowed envelope, reducing all your efforts from steps A through Z.

## Word Traverse Features:

The ExeClix feature list is extensive. Here is a sample of the features available:

- Ease of Use
- Windows Explorer Style Layout
- High Document Processing Speeds
- Highly Customizable
- Reporting And Invoicing Capabilities
